1. BACKGROUND

Regional Anti-corruption Initiative (RAI) is an intergovernmental regional organization which deals solely with anti-corruption issues and with a mission to lead regional cooperation to support anticorruption efforts by providing a common platform for discussions through sharing knowledge and best practices. It is comprised of nine member countries from South East Europe (SEE): Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Moldova, Montenegro, North Macedonia, Romania and Serbia; and three observers: Poland, Georgia and Slovenia. Kosovo* institutions are the beneficiary of RAI activities.

RAI Secretariat is based in Sarajevo and it is the executive body of the Initiative. It facilitates regional cooperation and efforts in curbing corruption in SEE by building on existing actions, through better coordination of all efforts, and by relying on high-level political commitment.

RAI Secretariat frequently engages independent experts from different fields to provide expertise on specific projects and programmes.

2. GENERAL PRINCIPLES

The main purpose of establishing a Roster of pre-vetted experts (hereafter: the Roster), is to facilitate the process of identification of possible trainers and experts (Senior and Junior) for a given topic or specific area of expertise for the needs of RAI Secretariat or at a request of its members or partners.

The Roster is established to facilitate the appointment of experts for a particular short-term assignment of a project or consultancy, under individual service contract and for pay, which includes an expert fee and other assignment-related expenses.

This Guide regulates the main rules and principles of the Application process, conditions and the procedure for enrolment to the Roster, determines criteria against which Applicants will be evaluated, along with the Call for Roster of pre-vetted experts, maintenance and update of the Roster, appointment of experts for particular assignments for the need of particular project or consultancy.

Applicants will be assessed on the basis of their capacity to fulfil the tasks set out in this call and in accordance with the principles of non-discrimination and equal treatment.

Experts will be selected from the list by rotation and in a balanced manner with regard to geographical and gender representativeness, while paying due attention to the specific tasks to be assigned and the necessary linguistic requirements, as well as to the absence of conflict of interest.

Inclusion in the list entails no obligation on the part of the contracting authority for assigning specific tasks and/or awarding a contract to an expert.

* This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo declaration of independence.
